

abcDetectorComponent

```
graph BT; mDOMHarness[mDOMHarness] --> abcDetectorComponent[abcDetectorComponent];
```

A UML class diagram showing an inheritance relationship. The class 'mDOMHarness' is represented by a gray-shaded box at the bottom, and the class 'abcDetectorComponent' is represented by a white box at the top. A solid blue arrow points from the bottom of 'mDOMHarness' to the bottom of 'abcDetectorComponent', indicating that 'mDOMHarness' inherits from 'abcDetectorComponent'.
